PROFESSIONAL SUMMARY

Creative and dedicated IT graduate with hands-on experience in software programming and web development. Proficient in HTML, CSS, JavaScript, Java, React, MySQL, PHP, Python, and C#. Skilled in building responsive applications, solving technical problems, and working in collaborative environments. Known for clean code, strong problem-solving, and a team-driven mindset, ready to contribute to dynamic software development teams.

SOFT SKILLS

- Creativity ●●●●○
- Adaptability ●●●●○
- Collaboration ●●●●○
- Critical Thinking ●●●●○
- Positive Attitude ●●●●○

HARD SKILLS

- JavaScript, HTML & CSS ●●●●○
- React ●●●○○
- MySQL ●●●●○
- Java, Python & PHP ●●●○○
- C# ●●○○○

WORK EXPERIENCE

IT Staff and Graphic Design Intern   **Jan 2025 - May 2025**

Saint Bernard Multi-Purpose Cooperative (SBMPC) - Saint Bernard, Southern Leyte

- Installed operating systems, crimped network cables, and provided hands-on assistance in resolving hardware and software issues.
- Debugged the SBMPC Election Software and updated member data in the cooperative's internal database.
- Designed creative logos and promotional materials, and produced identification cards for cooperative members.
- Supported daily office operations and contributed to both technical and design-related tasks across departments.

PROJECTS

food ordering Application | React, Node, Rest API, MySQL

- Developed a responsive web app that lets users browse menus and place food orders online using React and Node.js.
- Integrated RESTful APIs and MySQL to handle data storage, order processing

Self-Service Milk Tea Ordering System | Java, MongoDB

- Created a desktop-based milk tea ordering system that allows customers to place and customize their orders without staff assistance.
- Implemented MySQL for storing menu, orders, transactions, and stock data for efficient inventory and order management.

EDUCATION

Southern Leyte State University - San Juan   **Jul 2020 - Jun 2025**

Bachelor of Science in Information Technology - Programming
